07.SEP2025

Yo, I'm Koco, 21, from a tiny village near Wuppertal. Life's been crazy, so fast I can barely keep up myself.

Started out just a kid with a dream, wanting more than the usual standard. Then Dropped out of high school to learn from experts.

Next stop: hobby builder at Kliemannsland — burning cars, a chain-driven ride, all that wild stuff. After that? Band life. We recorded an album, record deals on the table, played 25 shows in one summer — and I managed the whole thing solo.

Then one day, a friend gave me his camera and i started shooting — and man, that was it. From that moment, I knew exactly what I want.

And now here you are, reading this — hopefully after checking out my work (if not, I get the doubt).

Next slides?

That's where you'll find the hard facts to back it all up.
